FOR IMMEDIATE RELEASE

FIBERMARK INTRODUCES METAL-X BY CORVON® RICH METALLIC TONES AND TEXTURES

Brattleboro, VT (January 2, 2007) – FiberMark’s [Metal-X by Corvon®](#) brings a new dimension to the Corvon® family of decorative covering materials. Featuring a variety of metal-like finishes in Silver, Steel, Titanium, and several Gold tones, Metal-X has a rich, lustrous quality. The masterfully crafted textures range from a classic brushed look to a bold hammered effect, creating dramatic visual appeal. A matte acrylic coating provides a satiny sheen as well as moisture and smudge-resistance.

This collection of captivating metal visuals is ideal for a range of design concepts, from high fashion to high tech. Metal-X offers trend-setting opportunities for a variety of upscale applications, including book covers, packaging, menus and bags, as well as stationery items, presentation binders, slipcases, portfolios and more.

For further information on [Metal-X by Corvon®](#) and other brand-enhancing covering materials from FiberMark, please contact Stella Alstede at FiberMark, Tel: (413) 539-5273 or e-mail: decorativecoverings@fibermark.com.

FiberMark offers distinctive covering materials that express brands, inspire designs, and make lasting impressions. With an extensive range of visual and tactile options, FiberMark materials provide an endless array of design possibilities. These specialty fiber-based materials are enhanced with a variety of colors, finishes, and embossing techniques that create visual depth and invite touch. FiberMark’s design specialists work with creative teams to develop a look that captures a brand’s unique personality, differentiate it from competitors, and create impact. FiberMark crafts its materials in the U.S. and Europe, creating innovative solutions for world-leading brands.
